Independent Auditor's Report

To the Tribal Council
Hoopa Valley Tribe
Hoopa, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, business-type activity, each major fund (except as described below), and the aggregate remaining governmental fund information of the Hoopa Valley Tribe (Tribe) Governmental Activities OMB A-133 Audit Report Package, and cash flows thereof as of and for the year ended September 30, 2013, which collectively comprise the Tribe's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Governmental Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor consider internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstance, but not for the purposes of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluation the appropriateness

MELISSA B PETERSEN, CPA LLC

CERTIFIED PUBLIC ACCOUNTANT

of accounting policies used and the reasonableness of significant accounting estimate made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained to be sufficient and appropriate to provide a basis for our audit opinions.

Opinion

In our opinion, based on our audit, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, , each major fund (except as described below), and the aggregate remaining fund information of the Tribe as September 30, 2013, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Emphasis of Matter

As discussed in Note II and Note II A., the financial statements referred to above include the Tribe's primary government activities. These financial statements don't include financial data for all of the Tribe's component units; further all of the Tribe's Economic Development business-type activities are excluded from these financial statements; both of which accounting principles generally accepted in the United States of America require to be reported with the Tribe's financial statement. As a result, the primary government financial statements do not purport to, and do not, present fairly the financial position of the reporting entity of the Tribe as of as September 30, 2013, and the respective changes in financial position and where applicable, cash flows thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the required supplementary information, such as budgetary comparison information on page 30 through page 34 be presented to supplement the basic financial statements. The management's discussion and analysis information has not been presented. The budgetary comparison information and the management's discussion and analysis are not a required part of the basic financial statements but are supplementary information required by accounting principles generally accepted in the United States of America. We have applied certain limited procedures, which consisted principally of inquires of management regarding the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the

MELISSA B PETERSEN, CPA LLC

CERTIFIED PUBLIC ACCOUNTANT

information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Tribe's basic financial statements. The combining financial statements listed in the contents as supplementary information are presented for purposes of additional analysis and are not a required part of the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*, and is also not a required part of the basic financial statements of the Tribe.

Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The combining financial statements, and the Schedule of Expenditures of Federal Awards has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statement or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining financial statements, and the schedule of expenditures of federal awards, are fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated September 12, 2014, on our consideration of the Tribe's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Tribe's internal control over financial reporting and compliance.

HOOPA VALLEY TRIBE
RECONCILIATION OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO
THE STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED SEPTEMBER 30, 2013

Net change in fund balances - total governmental funds \$ (1,228,832)

Amounts reported for governmental activities in the
Statement of Activities are different because:

Capital outlays are reported as expenditures in governmental funds. However, in the Statement of Activities, the cost of these assets is depreciated over their estimated useful lives:

Depreciation expense	(770,151)	
Capital outlay	1,370,973	600,822

Under the modified accrual basis of accounting used in the governmental funds, expenditures are not recognized for transactions that are not normally paid with expendable available resources. In the statement of activities, however, which is presented on the accrual basis of accounting, expenses are reported regardless of when the financial resources are available.

Decrease in compensated absences		110,918
----------------------------------	--	---------

An internal service fund is used by management to charge the costs of insurance to individual funds. The net expense of this internal service fund is reported with governmental activities in the statement of activities.

117,498

Repayment of debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position

Principal repaid		244,513

Notes to the Financial Statements

Note 1 - Description of Government and Summary of Significant Accounting Policies

I. Description of Government

The Hoopa Valley Tribe (the "Tribe") is a federally recognized sovereign Indian Tribe located on the Hoopa Indian Reservation in Hoopa California as established by Executive Order of June 23, 1876, and to such other lands as may hereafter be acquired by or for the Hoopa Valley Indians. The Tribe is governed by a Tribal Council which consists of a chairperson and seven (7) Tribal citizens, elected by the members of the Tribe to represent the seven traditional village sites. The Tribal Chairperson is elected by the membership to represent the membership as a whole.

II. The Reporting Entity

The Tribe's governmental policy-making body of the Tribe is the Tribal Council. The Office of Tribal Chairman is responsible for overseeing Tribal affairs within the confines of the Hoopa Valley Indian Reservation.

The Governmental Accounting Standards Board (GASB) has established criteria for determining the governmental reporting entity. The criteria set forth in Section 2100 and 2600 of the *Codification of Governmental Accounting and Financial Reporting Standards and Statement No. 14 (as amended) of the Governmental Accounting Standards Board: The Financial Reporting Entity*; are utilized to determine the reporting entity. These criteria include manifestation of oversight responsibility including financial accountability, appointment of a voting majority, imposition of will, financial benefit to or burden on the primary organization, and financial accountability as a result of fiscal dependency.

Blended component unit: Although separate legal entities, blended component units are in substance an integral part of the Tribe's operations. The Tribe applied the criteria of GASB Statement No. 14 to assess its financial statement reporting and determined that the K'ima:w Medical Center; the Lucky Bear Casino, Hoopa Valley Housing Authority, and Xontah Builders; which are governed by boards appointed by the Tribal Council and serve and benefit all Tribal members of the Tribe; are blended component units. The Tribe has elected to exclude the operations of the K'ima:w Medical Center; the Lucky Bear Casino; the Hoopa Valley Housing Authority; and the Xontah Builders from these financial statements. The results of the K'ima:w Medical Center; the Lucky Bear Casino; and the Hoopa Valley Housing Authority operations are separately presented in separate audited financial reports.

Discretely presented component units, on the other hand, are in a separate column in the statement of net position to emphasize that they are legally separate entity from the Tribe; the Tribe doesn't have any discretely presented component units.

II. A. Governmental Activities OMB-A-133 Audit Report Package

These financial statements present only the General Fund and Special Revenue Fund of the Tribe. The purpose of these financials is to provide an audit report covering federal expenditures to be filed with federal audit clearinghouse. Pursuant to OMB Circular A-133, section 500(a), the Tribe requested an audit of the General Fund and Special Revenue Fund to supplement the entity-wide audit report of the Tribe's governmental and business-type activities.

III. Summary of Significant Accounting Policies

Accounting Standards

The financial statements of the Tribe have been prepared in accordance with generally accepted accounting principles in the United States of America (GAAP) applicable to state and local governments. The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for establishing governmental accounting and financial reporting principles. The significant accounting and reporting policies and practices used by the Tribe are described below.

Basis of Presentation

Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes, intergovernmental revenues, and transfers from business-type activities, are reported separately from business-type activities, which rely to a significant extent on fees and charges for services.

The statement of activities demonstrates the degree to which the *direct expenses* of a given function, or segment, are offset by program revenues. *Direct expenses* are those that are clearly identifiable with a specific function or segment. The Tribe allocates indirect costs using a negotiated rate applied to the direct cost base of the applicable program. These allocated expenses are removed from the general government function and are added to the applicable program's function on the statement of activities.

Program revenues include:

1. charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and
2. grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or segment.

Revenues that are not classified as *program revenues*, including internally dedicated resources, are reported instead as *general revenues*.

Separate financial statements are provided for governmental, proprietary, and fiduciary funds; even though the latter are excluded from the government-wide financial statements. Major individual governmental and proprietary funds are reported as separate columns in the fund financial statements.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The government-wide financial statements are reported using the *economic resources measurement focus* and the *accrual basis of accounting*, as are the proprietary and fiduciary

Hoopa Valley Tribe
Notes to the Financial Statements
September 30, 2013

fund financial statements. Revenues are recorded when earned, and expenses are recorded when a liability is incurred; regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the government considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, debt service expenditures, as well as expenditures related to compensated absences and claims and judgments are recorded only when payment is due.

Timber sales, charges for services, and interest associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. All other revenue items are considered to be measurable and available only when cash is received by the government.

The Tribe reports the following major governmental funds:

- *General fund*-The General fund is the Tribe's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.
- *Special revenue fund*-established to account for the Tribe's federal and state funded grant programs. The fund presents several Major programs and a column for nonmajor programs which is comprised of various federal and state programs. The fund includes:
 - *BIA Compact* — The BIA Compact program accounts for the resources received by the Tribe through a self-governance Annual Funding Agreement from the U.S. Department of the Interior, Bureau of Indian Affairs.
 - *BOR Compact* — The BOR Compact program accounts for the resources received by the Tribe through a self-governance Annual Funding Agreement from the U.S. Department of the Interior, Bureau of Reclamation.
 - *IHS Compact* — The IHS Compact program accounts for the resources received by the Tribe through a self-governance Annual Funding Agreement from the U.S. Department of Health and Human Services, Indian Health Services.
 - *Timber Sale Obligation* — The Timber Sale Obligation program contracts the sale of Tribal timber.
 - *EDA* — The Economic Development program accounts for the resources received by the Tribe through a grant from the U.S. Department of Commerce.

Hoopa Valley Tribe
Notes to the Financial Statements
September 30, 2013

The Tribe reports the following major proprietary funds:

- *Gaming Commission* –The gaming commission is the regulatory body for the Tribe’s gaming operation. The commission collects gaming license fees and its operations are primarily supplemented by the General Fund.

Additionally, the Tribe reports the following fund types:

- *Internal Service Fund*-The Employee Benefits fund was established to account for amounts contributed by other Tribal funds and Tribal employees for a medical insurance program and other insurance coverage, including workman's compensation.

As a general rule the effect of interfund activity has been eliminated from the government-wide financial statements.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for sales and services. Operating expenses for enterprise funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the government's policy to use restricted resources first, then unrestricted resources as they are needed.

Cash and Cash Equivalents

The Tribe's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments with original maturities of three months or less from the date of acquisition.

Investments

In accordance with GASB Statement 31, *Accounting and Financial Reporting for Certain Investments and for External Investment Pools*, the Tribe's investments are stated at fair value.

Interfund Receivables and Payables

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as "due to/from other funds." Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances."

Inventory of Supplies - Governmental Funds

The costs of inventories are recorded as expenditures when purchased rather than when consumed.

Inventories - Proprietary Funds

Inventories are stated at cost, which is not in excess of market, using the first-in-first-out (FIFO) method. Costs represent invoice or production cost. Production cost includes material, labor, and overhead.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the Tribe as assets with an initial, individual cost of more than \$2,500 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business- type activities is included as part of the capitalized value of the assets constructed.

Property, plant, and equipment used in governmental activities and business-type activities are depreciated using the straight-line method over the following estimated useful lives:

Buildings	10-40	years
Improvements	5	years
Machinery and equipment	2-15	years
Furniture and fixtures	3-10	years
Infrastructure	5-15	years
Organizational costs	10	years

Compensated Absences

Compensated absences consist of vacation leave and calculated amount of sick leave earned by employees based on services already rendered. Annual leave maximum carryover is 160 hours. If the hours are in excess of the carryover amount, accrual or annual leave will cease until annual leave balance recedes to 160 hours or less at which time the accrual will again commence. Upon termination of employment, all unused and unforfeited vacation benefits are paid to employees. Accordingly, vacation benefits are accrued as a liability in the financial statements.

Employees may accumulate an unlimited number of sick-leave hours. Generally, sick- leave benefits provide for ordinary sick pay and are cumulative, but are forfeited upon termination of employment. Because sick-leave benefits do not vest with employees, a liability for sick-leave benefits is not accrued in the financial statements.

Long Term Obligations

In the government-wide and proprietary fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net assets.

In the fund financial statements long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund.

Investment Income

Investment income is composed of interest, dividends, and net changes in the fair value of applicable investments.

Net Position

Net position as presented in the Statement of Net Position, represent the difference between assets and liabilities. Net investment in capital assets, net of related debt, consists of capital assets, net of accumulated depreciation, reduced by outstanding balances of any borrowings used for the acquisition, construction, or improvement of those assets. Net investment in capital assets, net of related debt, excludes unspent debt proceeds. Net position is reported as restricted when there are limitations imposed on the use either through the motions approved by the Tribal Council, or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. There were no restrictions on net position at September 30, 2013.

Fund Balance Classifications

Fund balances of the governmental funds are reported separately within classifications based on a hierarchy of the constraints placed on the use of those resources. The classifications are based on the relative strength of the constraints that control how the specific amounts can be spent. The classifications are nonspendable, restricted, and unrestricted which includes committed, assigned, and unassigned fund balance classifications.

The nonspendable fund balance classification includes amounts that cannot be spent because they are either not in spendable form such as inventories, or are legally or contractually required to be maintained intact. Restricted fund balances are those that have externally imposed restrictions on their usage by creditors, such as through debt covenants, grantors, contributors, or laws and regulations.

The unrestricted fund balance category is comprised of committed, assigned, and unassigned resources. Committed fund balances are self-imposed limitations approved by the Tribal Council, which is the highest level of decision-making authority within the Tribe. The constraints placed on committed fund balances can only be removed or changed by the Council through Tribal resolution. Assigned fund balances are resources constrained by the Tribe's intent to be used for specific purposes, but are neither restricted nor committed. The Tribal Council has authorized the finance director to make assignments of resources for a specific purpose.

The unassigned fund balance is the residual classification for the General fund and includes all spendable amounts not reported in the other classifications. Also, deficits in fund balances of the other governmental funds are reported as unassigned.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Income Taxes

The Tribe is exempt from federal and state income tax because of its status as an Indian Tribal Government and it is not required to file federal and state income tax returns.

IV. Stewardship, compliance and accountability: Budgetary Data

The Tribe follows these procedures in establishing the expenditures budget data reported in the accompanying financial statements:

- The Fiscal Department and Tribal Chairperson, working with department directors, submits a proposed budget to the Tribe's Legislative Council for adoption. The Council adopts the budget as submitted or modifies the proposed budget before adopting it.
- Budget changes must be approved by the CFO, Tribal Chairperson &/or Tribal Council.
- Funded program budgets and changes are subject to funding agency approval.
- Appropriations lapse at year-end on the Tribe's funded budgets.
- The budget for the Tribe is adopted on a basis consistent with U.S. generally accepted accounting principles.

Note 2 – Reclassification and Prior Period Adjustment

Reclassifications to Net Position

Reclassification of the Tribe's gaming operations and the medical center, both of which are separately reported on, resulted in a reduction to beginning Net Position of \$1,349,995 and \$8,825,733, respectively; for a total reduction to beginning Net Position of \$10,175,728.

Adjustments to Net Position

Adjustments to grant accounting resulted in an increase to beginning Net Position of \$1,154,738; and adjustments to stale due to / due from resulted in an increase to beginning Net Position of \$ 4,388,434.

Note 3 – Detailed notes on all funds

A. Deposits and investments

Deposits

At September 30, 2013 the Tribe’s carrying amount and bank balance for deposits reported in the basic financial statements of the Tribe was as follows:

	Carrying Amount	Bank Balance
<i>Governmental Activities</i>		
Cash in Bank	\$ 23,640,299	\$ 24,613,656
Total Cash in Bank	\$ 23,640,499	\$ 24,613,656

The difference in the amount of the carrying amount as compared to the bank balance is attributable to outstanding checks that have been recorded into the books of the Tribe and mailed to vendors but not yet presented to the bank by the vendors. Deposits are carried at cost.

Custodial Credit Risk – Custodial credit risk is the risk that in the event of a bank failure, the Tribe’s deposits may not be returned to it. The Tribe had funds on deposit that were collateralized under the financial institution’s public funds account, but this collateral is not held in the Tribe’s name. The Tribe has not experienced any losses in such accounts and believes they are not exposed to any significant credit risk on cash and cash equivalents.

Pursuant to the Dodd-Frank Wall Street Reform and Consumer Protection Act, effective July 21, 2010 the standard maximum deposit insurance amount is \$250,000 per depositor, per insured depository institution. The Tribe maintained balances in excess of the \$250,000 standard FDIC coverage at banking institutions. Of the bank balances, \$612,756 was covered by Federal Depository Insurance, and \$345,015 was not collateralized or secured by any pledged securities.

Investments

As of September 30, 2013, the Tribe had the following investments:

<i>Governmental Activities</i>	Maturities	Fair Value
Certificates of Deposit	6/6/14	\$ 97,976
Certificates of Deposit	9/1/13	55,139
Certificates of Deposit	11/10/13	141,054
Certificates of Deposit	12/1/13	123,391
Certificates of Deposit	9/30/13	129,876
Certificates of Deposit	10/1/13	118,072
Certificates of Deposit	10/29/13	122,557
Certificates of Deposit	11/20/13	98,046
Total Investments Governmental Activities		\$ 886,111

Interest Rate Risk. The Tribe does not have a formal investment policy that limits investment

Hoopa Valley Tribe
Notes to the Financial Statements
September 30, 2013

maturities as a means of managing its exposure to fair value losses arising from increasing interest rates.

Credit Risk. There are no regulations limiting the types of investments that the Tribe can make. The Tribe has no investment policy that would further limit its investment choices.

Concentration of Credit Risk. The Tribe places no limit on the amount it may invest in anyone issuer. Less than 1 percent of the Tribe's investments are in U.S. Treasury securities. The Tribe's investments are primarily held in Certificates of Deposit.

B. Accounts Receivable

At September 30, 2013 the Tribe's accounts receivable balances was as follows:

	<i>Governmental Activities</i>
Accounts Receivable	\$ 3,340,458
Less: allowance for doubtful collection	(578,882)
	\$ 2,761,576

C. Related Party Receivable

At September 30, 2013 the Tribe's accounts receivable balances was as follows:

	Receivable Program	Payable Program	Amount
<i>Governmental Activities</i>			
General Fund		Housing Authority	\$ 5,354
		K'ima:w	22,033
		Modular	1,743,993
		Lucky Bear	403,440
Internal Service Fund		Housing Authority	49,893
		K'ima:w	237,715
		<i>Total Governmental Activities</i>	\$ 2,462,427
	Receivable Program	Payable Program	Amount
<i>Business-Type Activities</i>			
	Gaming Commission	Lucky Bear	\$ 71,102
		<i>Total Business-Type Activities</i>	\$ 71,102

Hoopa Valley Tribe
Notes to the Financial Statements

Hoopa Valley Tribe
Notes to the Financial Statements
September 30, 2013

The Tribe's management charged \$ 770,295 in depreciation expense for the year ended September 30, 2013. The depreciation expense was charged to the following functions in the statement of activities:

Governmental Activities

General government	\$ 283,845
Natural resources development	267,559
Public safety	61,126
Public services	47,307
Social services	31,396
Culture and recreation	9,581
Education	69,481
Total depreciation charged	<u>\$ 770,295</u>

G. Unearned Grant Revenue

At September 30, 2013 the unearned grant revenue was as follows:

Governmental Activities

U.S Department of Interior – BIA Compact	\$ 2,608,288
U.S Department of Interior – I H S Compact	(16,266)
U.S Department of Interior – BOR Compact	1,392,683
Other non-federal non-profit sources – General Fund Programs	103,242
U.S Department of Interior – BIA Non-Major Programs	2,327,488
U.S. Department of Health and Human Services	48,665
U.S. Department of Education	1,551
California Department of Education – Non-Major Programs	52,483
Other non-federal non-profit sources – Non-Major Programs	166,097
Total unearned grant revenue	<u>\$ 6,684,232</u>

Business-Type Activities

Other non-federal non-profit sources – Non-Major Programs	\$ 3,557
	<u>\$ 3,557</u>

Hoopa Valley Tribe
Notes to the Financial Statements
September 30, 2013

H. Interfund balances

At September 30, 2013 the Tribe's interfund balances were as follows:

	Amount
<i>Governmental Activities</i>	
General Fund	(551,301)
Special Revenue Fund	(1,041,223)
Internal Service Fund	<u>2,710,268</u>
<i>Total Governmental Activities</i>	<u>\$ 1,117,744</u>

Due to / Due from transactions are used for short-term interfund loans. The outstanding balance is the result of a time lag between the date the grant revenue was received and the date the qualifying grant expenditure was made.

I. Changes in Long-term liabilities

At September 30, 2013 the Tribe's long-term liability activity was as follows

	Beginning Balance	Increases	Reductions	Ending Balances	Amounts Due within One Year	Amounts Due more than One Year
<i>Governmental Activities</i>						
Capital leases payable	11,952		(11,952)	-		
Compensated absences	654,399		(110,918)	543,481		
Notes payable	<u>174,335</u>		<u>(174,335)</u>	<u>-</u>		
Total Long-term debt	<u>840,686</u>	<u>-</u>	<u>(297,205)</u>	<u>543,481</u>		

Note 4 – Other Information

A. Risk management

The Tribe is exposed to various risks of loss from theft, damage or destruction of assets; errors and omissions; and natural disasters. The Tribe has provided for these risks on a self-insurance basis to address the major risks such as property and general liability, and workers compensation. This program is accounted for as an internal service fund.

The Tribe has chosen to establish a risk financing fund for risks associated with the employee's health insurance plan and workman's compensation. The risk financing fund is accounted for as an internal service fund where assets are set aside for claim settlements. A premium is charged to each fund that accounts for part-time or full-time employees. The total charge allocated to each of the funds (the allocation is based upon the percentage of each fund's current-year payroll as it relates to total payroll of the Tribe) is calculated using trends in actual claims experience. Provisions are also made for unexpected and unusual claims. During 2013, the Hoopa Forest Industries (HFI) experienced a casualty loss due to fire damage to the building and equipment used for operations a loss of \$ 48,900 was recorded; HFI is in the process of rebuilding operations. Additionally, during 2013, the Credit department experienced a casualty loss due to fire damage to the building and equipment used for operations a loss of \$ 47,673 was recorded.

Liabilities of the fund are reported when it is probable that a loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). Claim liabilities are calculated considering the effects of inflation, recent claim settlement trend including frequency and amount of payouts and other economic and social factors. Changes in the balances of claims liabilities during the past two fiscal years are as follows:

	2013		2012
Unpaid claims, BOY	\$ 721,494	\$	659,202
Incurred claims (including IBNRs)	3,582,257		3,249,244
Claim payments	(3,186,952)		(3,186,952)
 Unpaid claims, EOY	 \$ <u>944,002</u>	 \$	 <u>721,494</u>

The employee benefits fund provides, with certain limitations, health benefits (Comprehensive, major medical, and dental) to eligible employees on a self-insured basis.

The employee benefits fund has obtained reinsurance in connection with aggregate excess risk insurance and specific excess risk insurance. For aggregate excess risk insurance, the reinsurance company's limit of liability is 100 percent of paid aggregate losses which are in excess of the aggregate deductible amount. For specific excess risk insurance, the reinsurance

company's limit of liability is 100 percent of paid specific losses which are in excess of a specific deductible.

The operations of the trust are governed by an agreement and declaration of trust between it and the Tribe. The employee benefits fund may be terminated at any time by the Tribe by an instrument in writing, and upon prior notice to each participating member.

B. Commitments and contingent liabilities

The Tribe participates in federal and state grant programs. These programs are subject to financial and compliance audits by the grantor or its representative. Such audits could lead to requests for reimbursement to the grantor agency for expenditures disallowed under terms of the grant. The amount of expenditures that may be disallowed by the granting agency cannot be determined at this time, although it is believed by the Tribe that the amount, if any, would not be material to the accompanying basic financial statements.

C. Pension Plan

The Tribe sponsors a defined contribution plan which is administered by Principal Financial Group. The pension plan is provided to eligible Tribal employees who have been employed for at least three months, completed one thousand hours of service, and reached the age of eighteen. Employees can enter the plan on June 1 or December 1 after all eligibility requirements have been met.

Employees who choose to participate in the pension plan may contribute up to 20% of their salary. This contribution is fully vested with the employee. The Tribe will match 100% of all employee contributions up to 3.5%. The matching portion vests as follows:

Years of Service	<u>Amount Vested</u>
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

An employee may not withdraw their contribution until death, retirement, or termination of employment with the Tribe. Any forfeitures of the Tribe's matching contribution will be allocated to the remaining eligible employees.

During the plan year ended September 30, 2013, employee and Tribal contributions each totaled \$308,899 and \$203,972, respectively. The payroll for employees' covered by the plan for the year ended September 30, 2013, the Tribe's total payroll was \$12,114,674.

D. Related Party Transactions

The Hoopa Forest Industries (HFI) Enterprise fund purchases standing timber from the Hoopa Valley Tribal Council. The amount of the purchases is paid to the Bureau of Indian Affairs and held in trust on behalf of the Tribe. Additionally, HFI receives road betterment and construction services from the Forestry Department. During 2013 HFI paid \$1,809,864 in stumpage fees and \$5,203 in related interest charges to the Bureau of Indian Affairs on behalf of the Tribe. In addition, HFI paid \$413,544 to the Hoopa Valley Tribal Council Forestry Department for forestry and road expenses.

The Forestry Department contracts with the Road Department to build and maintain roads in areas where trees will be cut. During 2013 the Roads Department recorded \$69,207 of revenue for work performed for the Forestry Department.

E. Subsequent Events

The management of the Tribe has evaluated subsequent events through September 12, 2014, the date on which the financial statements were available to be issued

Construction in progress:

Governmental Activities

The Tribe has construction in progress as of September 30, 2013, for the Bald Hill Water Project, Hoopa Forest Industries building and Credit Division building, and the Tribal Police Building.

HOOPA VALLEY TRIBE

Notes to Schedule of Expenditures of Federal Awards

1. GENERAL

The accompanying Schedule of Expenditures of Federal Awards (the "Schedule") presents the activity of all federal awards programs of the Hoopa Valley Tribe (the "Tribe"), for the year ended September 30, 2013. Because the schedule presents only a selected portion of the operations of the Tribe, it is not intended to and doesn't present the financial position, changes in net assets, or cash flows of the Tribe. Federal awards received directly from federal agencies are designated as "*Direct Program*". Any federal awards passed through from other grantor agencies, if any, are designated as "*Pass-through*" on the Schedule.

The information in the Schedule is presented in accordance with the requirements of OMB Circular A-133, *Audits of States, Local Governments, and Non-Profit Organizations*. The amounts presented in the Schedule agree to the amounts presented in, or used in the preparation of, the basic financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Schedule is presented using the accrual basis of accounting, the method used to prepare the Tribe's basic financial statements. Note 1 of the Tribe's basic financial statements describes the significant accounting policies used by the Tribe. Such expenses are recognized following the cost principles contained in OMB Circular A-87, Cost Principles for State, Local, and Indian Tribal Governments, wherein certain types of expenses are not allowable or are limited as to reimbursement.

3. SUBRECIPIENTS

The Tribe's medical center "K'ima:w", a component unit of the Tribe, is a subrecipient of the Tribe's I H S TSG Program CFDA 93.210 during fiscal year 2013 in the amount of \$5,984,794.

4. OTHER MATTERS

The Tribe's Economic Development program has utilized the Economic Adjustment Assistance revolving loan program, CFDA 11.307 for several years.

The Tribe accounts for these loans in the special revenue fund; loans advanced to 25 participants as of September 30, 2013 total \$ 2,284,055, net of allowance for doubtful collection.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Tribal Council Members
Hoopa Valley Tribe
Hoopa, California

Dear Members of the Tribal Council:

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, fund, and the aggregate remaining fund information of the Hoopa Valley Tribe (Tribe) as of and for the year ended September 30, 2013, and the related notes to the financial statements, which collectively comprise the Tribe's basic financial statements and have issued our report thereon dated September 12, 2014, which included an adverse opinion due to the omission of financial data of Xontah Builders (formerly known as Hoopa Modular), a blended component unit of the Tribe. Additionally, we performed a supplemental audit of the Governmental Activities of the Tribe's general fund and special revenue fund, each major fund, fund, and the aggregate remaining fund information as of and for the year ended September 30, 2013, and the related notes to the financial statements for the purpose of providing audited financial statements to the federal audit clearinghouse.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the Tribe's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Tribe's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Tribe's internal control over financial reporting.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. A *material weakness* is a deficiency, or combination of control deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented or detected and corrected on a timely basis. A *significant deficiency*, is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention to those charged with governance.

MELISSA B PETERSEN, CPA LLC

CERTIFIED PUBLIC ACCOUNTANT

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and would not necessarily identify all deficiencies in internal control that might be significant deficiencies or material weaknesses. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. Therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies as items: 2013-001 and 2013-002.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Tribe's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

We also noted certain other matters that we reported to management of the Tribe in a separate letter dated September 12, 2014.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Tribe's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

**Independent Auditor's Report Report on Compliance for Each Major Federal Program,
Report on Internal Control Over Compliance, and Report on the Schedule of Expenditures
of Federal Awards Required by OMB Circular A-133**

Tribal Council Members
Hoopa Valley Tribe
Hoopa, California

Dear Members of the Tribal Council:

Report on Compliance for Each Major Federal Program

We have audited the compliance of the Hoopa Valley Tribe (Tribe) with the types of compliance requirements described in the U. S. Office of Management and Budget (OMB) Circular A-133 Compliance Supplement that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2013. The Tribe's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

The Tribe's basic financial statements and the schedule of findings and questioned costs do not include the financial data of the Tribe's component unit – K'ima:w Medical Center, which reported \$7,003,884 in federal awards expended for the year ended September 30, 2013. Our audit, described below, did not include these operations because the Tribe engaged other auditors to perform an audit of that entity in accordance with OMB Circular A-133.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on the Tribe's compliance for each of the Tribe's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Tribe's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each of the Tribe's major federal programs. Our audit does not provide a legal determination of the Tribe's compliance with those requirements.

MELISSA B PETERSEN, CPA LLC

CERTIFIED PUBLIC ACCOUNTANT

Opinion on Each Major Federal Program

In our opinion, the Tribe complied, in all material respects, with the requirements referred to above that could have a direct and material effect of its major programs for the year ended September 30, 2013.

Report on Internal Control Over Compliance

The management of the Tribe is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal programs. In planning and performing our audit, we considered the Tribe's internal control over compliance with the requirements that could have a direct and material effect on a major federal program in order to determine our auditing procedures for the purpose of expressing our opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Tribe's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness* in internal control over compliance is a deficiency, or combination of control deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented or detected and corrected on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and would not necessarily identify all deficiencies in internal control over compliance that might be significant deficiencies or material weaknesses. We didn't identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses may exist that have not been identified. We identified certain deficiencies in internal control over compliance, as described in the accompanying schedule of findings and questioned costs as items: 2013-003, 2013-004 and 2013-005; that we consider to be a significant.

Purpose of this Report on Internal Control Over Compliance

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of OMB Circular A-133. This report is not suitable for any other purpose.

Hoopa Valley Tribe
Schedule of Findings and Questioned Costs
For The Year Ended September 30, 2013

SECTION II - FINANCIAL STATEMENTS

2013-001

Condition: A review of the year-end general ledger balances should be performed to identify and correct any errors or discrepancies noted in the general ledger balances.

Criteria: Sound business practice dictates that persons responsible for the books and records of the primary government should ensure that related party transactions are properly identified, tracked, reconciled, and reported in the financial statements.

Effect: The financial statements are an important management assessment tool of the financial health and overview of financial operations; delayed, incomplete, and inaccurate financial statements limits managements' ability to properly assess financial performance.

Cause: The discrepancies were a result of the Tribe's governmental accounting department relying upon the enterprise accountants to properly review their accounts without oversight or input. Further, the governmental accounting department didn't review and reconcile related party transactions and transfers to ensure amounts were reported consistently between departments, divisions, component units and the primary government.

Recommendation: The Tribe's governmental accounting department should review the trial balance and reconcile related party transactions prior to the commencement of the audit; as this reconciling process is the responsibility of management and is not a byproduct of the audit process.

Management Response: We concur with this finding. This finding will be corrected immediately.

Corrective Action Plan:

Person responsible:	Lisa Land, Controller/ Stephen Burbank, CFO
Date to be completed:	September 30, 2014
Action steps:	Controller to review related party transactions monthly and correct any discrepancies; CFO will conduct final review

2013-002

Condition: 10 out of 165 payroll transactions, examined didn't contain the proper authorization of the employee's timesheet by his/her direct supervisor prior to preparation of the payroll check; an 6% error rate.

Criteria: The Tribe's policies and procedures require that all employees' timesheets to be review and approved, as evidence by a signature on a timesheet, before being submitted to the payroll department for processing.

Effect: The purpose for the approval is to serve as a verification process that the hours were worked by the employee for approved purposes, assignments, and projects. Failure to properly review and approve employee timesheets may potentially allow improper payroll expenditures to be created.

Cause: The Tribe's policies and procedures were not followed.

Hoopa Valley Tribe
Schedule of Findings and Questioned Costs
For The Year Ended September 30, 2013

Recommendation: Supervisors should be reminded of their responsibility to review and approve the timesheets of the employees that they have supervisory responsibility.

Management Response: We concur with this finding. This finding will be corrected immediately.

Corrective Action Plan: Person responsible: Department directors/ Katera Lipscomb, Payroll Clerk
Date to be completed: September 30, 2014
Action steps: Payroll Clerk will review all timesheets for approval No payroll will be processed without all required approvals

Condition:

Late Financial Statement Audit

Hoopa Valley Tribe
Schedule of Findings and Questioned Costs
For The Year Ended September 30, 2013

Criteria: **OMB A-133 §.320 requires the submission of the annual audit reporting package to the federal audit clearinghouse within 9 months of year-end.**

Effect: The Tribe is not in compliance with federal audit reporting requirements

Questioned Costs: Not applicable

Cause: Financial statements were not prepared in a timely manner in order that an audit may be conducted.

Recommendation: Financial statements should be prepared on a monthly basis and reviewed by supervisory level personnel to assess completeness and accuracy of the information contained in the financial statements.

Management response: We concur with this finding. Two fires destroyed the buildings of two Tribal entities causing a significant delay in the ready for audit process

Corrective Action Plan:

Person responsible:	Stephen Burbank, CFO
Date to be completed:	June 30, 2015
Action steps:	Award the audit contract prior to the end of the fiscal year Complete ready for audit steps more timely Submit audit report to the Federal Audit Clearinghouse prior to June 30, 2015

**HOOPA VALLEY TRIBE
